SUPPORTING COMMUNITIES CAN BE CHALLENGING

Our solution?

FUNDLE

Fundle is a web application designed to connect **donors, volunteers, and community organizations** in one seamless platform. Many initiatives struggle with visibility and securing the support they need, while people who want to help often don't know where to start.

With **FUNDLE**

Users can:

- Discover meaningful causes and contribute through donations or volunteering.
- Receive updates about the projects they care about.

Organizations can:

- Showcase their initiatives and progress.
- Promote upcoming events and fundraising campaigns.
- Attract volunteers and engage with a larger audience.

*By providing **transparency** and **accessibility**, Fundle ensures that every **small** contribution leads to a **big** impact.*

FUNDLE'S BENEFICIARIES

Who will Benefit?

ORGANIZATIONS

- Gain better visibility and increase fundraising success.
- Attract donors and volunteers to sustain their projects.
- Provide real-time transparency on how funds are used.

USERS & DONORS

- Discover causes that align with their values.
- Easily donate using secure payment options.
- Track their contributions and see their direct impact.

FUNDLE'S BENEFICIARIES

Who will Benefit?

VOLUNTEERS

- Find volunteer opportunities that match their skills and availability.
- Sign up and manage their commitments easily.
- Connect with other individuals who share their passion for helping.

LOCAL COMMUNITIES

- Benefit from increased support and awareness.
- Experience better-funded, well-organized initiatives.
- Strengthen community involvement and engagement.

WHY WAS Fundle Conceptualized?

Many community initiatives and non-profits struggle with:

- ✖ **Limited visibility** – Hard to reach potential donors and volunteers.
- ✖ **Unstable funding** – Difficulty securing long-term financial support.
- ✖ **Lack of transparency** – Donors want to see where their money goes.

At the same time, individuals face challenges such as:

- ✖ Not knowing which organizations to **trust**.
- ✖ Finding it **difficult** to track the impact of their contributions.
- ✖ Wanting a simpler way to **donate** or **volunteer**.

HOW WILL IT BE Implemented?

To design and implement Fundle, we will integrate modern web technologies to create a secure, user-friendly, and transparent platform for donations, volunteering, and community engagement.

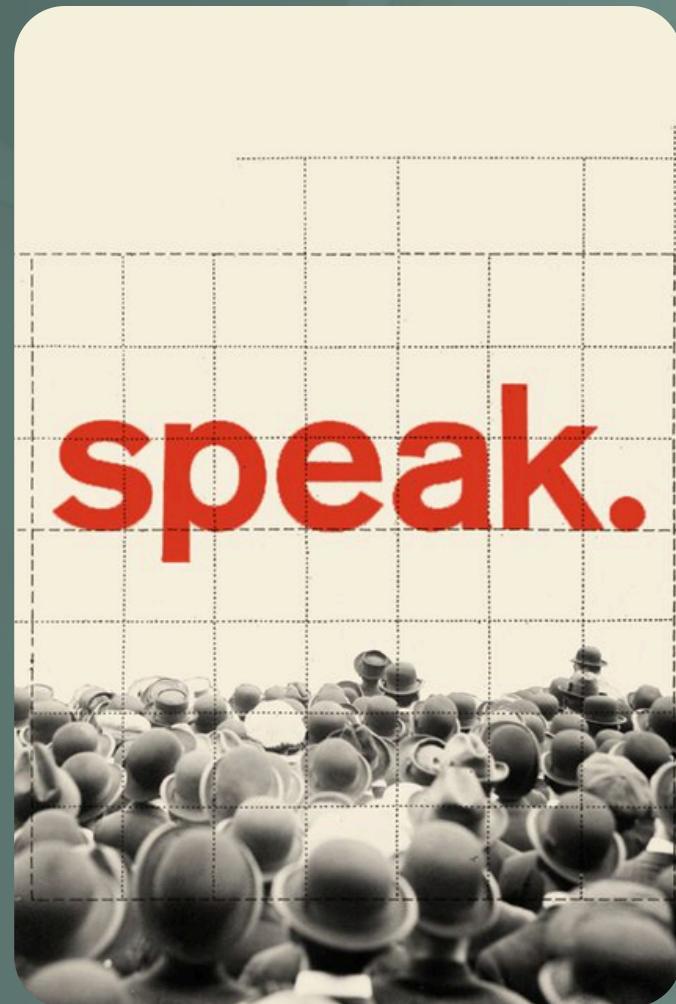

HOW WILL IT BE Implemented?

The system will feature a dynamic dashboard for organizations to manage events, recruit volunteers, and track donations in real-time. Users will be able to follow organizations, receive personalized updates, and contribute through secure payment gateways such as PayPal and GCash.

HOW WILL IT BE Implemented?

Additionally, Fundle will incorporate an interactive event calendar, real-time notifications, and collaboration tools to strengthen the connection between organizations and supporters. By leveraging analytics and reporting, we ensure transparency, allowing donors and volunteers to see the direct impact of their contributions on the community.

Mission & Vision

Fundle is dedicated to empowering communities by providing a centralized, transparent, and accessible platform for fundraising, volunteering, and organizational collaboration. We strive to bridge the gap between individuals who want to help and organizations that need support, ensuring that every contribution—big or small—creates a lasting impact.
